

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions and listings of claims in the application:

1. (Canceled)
2. (Currently amended) ~~The composition of claim 1~~ A composition comprising geranium oil and extractions from the root of *Sophora tonkinensis*, wherein the geranium oil and extractions from the root of *Sophora ~~tenkinesis~~ tonkinensis* have a weight ratio of about 30:1.
3. (Currently amended) The composition of claim 2 [[1]], wherein the composition comprises a mixture of powders of geranium oil and powders of extractions from the root of *Sophora ~~tenkinesis~~ tonkinensis*.
4. (Currently amended) The composition of claim 3, wherein the powders of geranium oil is about 56% by weight of the ~~mixture of composition~~ powders.
5. (Currently amended) The composition of claim 4, wherein the powders of geranium oil comprise about 31% by weight geranium oil ~~at about 34% by weight~~ and ~~excipients at about 62% 69%~~ by weight excipients, respectively, of the geranium oil powders.  
~~at about 69% by weight.~~
6. (Currently amended) The composition of claim 3, wherein the powders of extractions from the root of *Sophora ~~tenkinesis~~ tonkinensis* is about 1% by weight of the ~~mixture of composition~~ powders.
7. (Currently amended) The composition of claim 6, wherein the powders of extractions from the root of *Sephora ~~tenkinesis~~ Sophora tonkinensis* comprise *Sephora-*

tenkinesis about 60% by weight *Sophora tonkinensis* extractions and about 40% by weight excipients, respectively, of the *Sophora tonkinensis* powders.

8. (Currently amended) The composition of claim 2 [[1]], wherein the geranium oil is extracted from one or more species of the genus *Pelargonium*.

9. (Withdrawn; currently amended) The composition of claim 2 [[1]], wherein the geranium oil is extracted from a plant of the genus *Pelargonium* and species *graveolens*.

10. (Currently amended) The composition of claim 2 [[1]], wherein the geranium oil is extracted from a plant of the genus *Pelargonium* and species *roseum*.

11. (Withdrawn; currently amended) The composition of claim 2 [[1]], wherein the geranium oil is extracted from a plant of the genus *Pelargonium* and species *terebinthaceum*.

12. (Withdrawn; currently amended) A method for the treatment of bone marrow suppression resulting from one or more cancer treatments comprising administering a therapeutically effective dose to a patient in need thereof of a pharmaceutical composition comprising geranium oil and extracts from the root of *Sophora-tonkinesis* *Sophora tonkinensis*.

13. (Withdrawn) The method of claim 12, wherein the composition comprises citronellol, geraniol, geranyl formate, citronellyl formate, matrine, and oxymatrine.

14. (Withdrawn) The method of claim 12, wherein the composition comprises citronellol, geraniol, geranyl formate, citronellyl formate, linalool, trans-rose oxide, cis-rose oxide, matrine, oxymatrine, and sophocarpine.

15. (Withdrawn) The method of claim 12, wherein the composition comprises geranium oil, matrine, and oxymatrine.
16. (Withdrawn; currently amended) The method of claim 12, wherein the composition comprises extractions from the root of *Sophora tenkinensis* *Sophora tonkinensis*, citronellol, geraniol, citronellyl formate, and geranyl formate.
17. (Withdrawn) The method of claim 12, wherein the bone marrow suppression is a reduction in the number of one or more types of blood cells selected from the group consisting of leukocytes, erythrocytes, and platelets.
18. (Withdrawn) The method of claim 12, wherein the one or more cancer treatments is chemotherapy, radiation therapy, or both chemotherapy and radiation therapy.
19. (Withdrawn) The method of claim 18, wherein the chemotherapy agent is 5-fluorouracil, doxorubicin, or both 5-fluorouracil and doxorubicin.
20. (Withdrawn) The method of claim 12, wherein the administration is carried out through oral administration, intraperitoneal administration, or intravenous administration.
21. (Withdrawn) The method of claim 20, wherein the oral administration is carried out at a dosage in a range between about 280mg/kg/day and about 1050mg/kg/day.
22. (Withdrawn) The method of claim 21, wherein the oral administration is carried out at a dosage about 350mg/kg/day.

23. (Withdrawn) The method of claim 21, wherein the oral administration is carried out at a dosage in a range between about 1680mg/60kg/day and about 6300 mg/60kg/day.

24. (Withdrawn) The method of claim 21, wherein the oral administration is carried out at a dosage about 2100mg/60kg/day.

25. (Withdrawn; currently amended) The method of claim 12, wherein the geranium oil and extractions from the root of *Sephora-tonkinesis* *Sophora tonkinensis* have a weight ratio of about 30:1.

26. (Withdrawn) The method of claim 12, wherein the patient is human(s).

27. (Withdrawn) The method of claim 20, wherein the oral administration is carried out by administering the composition in the form of powders, pastes, pills, tablets, oil capsules, syrup, liquids, or decoction soups.

28. (Withdrawn; currently amended) The method of claim 20, wherein the oral administration is carried out by administering edible forms of Pelargonium plant and the root of ~~*Sephora-tonkinesis*~~ *Sophora tonkinensis*.

29. (Withdrawn) The method of claim 12, wherein the geranium oil is extracted from one or more species of the genus Pelargonium.

30. (Withdrawn) The method of claim 12, 13, 14, 15, 16, 27 or 28, wherein the composition further comprises a pharmaceutically acceptable solvent.

31. (Withdrawn) The method of claim 12, wherein the administration is carried out by administering the composition before, after, before and after, or during cancer treatments.

32. (Withdrawn) The method of claim 31, wherein the administration is carried out by administering the composition following a time interval between separate administrations.

33. (Withdrawn) The method of claim 32, wherein the time interval is one to fourteen days, within twenty-four hours, or within forty-eight hours.

34. (Withdrawn) The method of claim 20, wherein the oral administration is carried out before cancer treatments that induce bone marrow suppression.

35. (Withdrawn) The method of claim 34, wherein the oral administration is in the form of food additives, dietary supplement, or functional food.

36. (Withdrawn) A method for the treatment of bone marrow suppression resulting from one or more cancer treatments comprising administering a therapeutically effective dose to a patient in need thereof of a pharmaceutical composition comprising geranium oil and extracts from the root of a Sophora plant.

37. (Withdrawn) The method of claim 36, wherein the Sophora plant is *Sophora alopecuroides* or *Sophora moorcroftiana*.

38. (Withdrawn; currently amended) A method for the treatment of bone marrow suppression resulting from one or more cancer treatments comprising administering a therapeutically effective dose to a patient in need thereof of a pharmaceutical composition comprising geranium oil and extracts from the roots of ~~*Euchresta strigillosa*~~ *Euchresta strigillosa*.
